LETTER FROM THE MANAGING DIRECTOR

Dear Member,

There has never been a year such as this. We pray that there never will be any more in our lifetime as well as of our children and grandchildren.

As on May 14, 2021, the virus has infected over 160 million and has claimed the lives of 3.4 million people worldwide. India, the second worst infected country in the world, has witnessed over 25 million cases and more than 270,000 deaths.

With the pandemic flaring for the first time in April 2020, the primary objective was to ensure health and safety of our employees and their families while continuing to manufacture medicines across the world. We wish to take this opportunity of thanking every employee of your company for putting in all the extra efforts in these trying times to make these results happen. They have done spectacular work.

We do not know when the second wave will subside. Neither do we know whether there will be a third wave and of what intensity. But we do know that the only preventive worth the name is vaccination.

Many of us have lost loved ones during this pandemic, especially in the second wave. Our sincerest condolences to them and our prayers that the families have the spirit and strength to overcome their tragedies. We wish to take this opportunity of thanking every employee of our company for putting in all the extra efforts in these trying times to make things happen. They have done spectacular work.

Stay safe. Vaccinate as soon as you can. Wear masks. Maintain social distancing. This, too, shall pass. But it needs our combined efforts and determination to succeed.

With our best regards and prayers,

Sd/-

Mahendra Turakhia,
Chairman and Managing Director

OUTLOOK

The pandemic will continue to affect healthcare provisions and pharmaceutical sales throughout 2021 due to emergence of new variants that can spread faster and vaccine availability challenges. While economic growth is forecasted to rebound in 2021, the after effect of the economic downturn during the pandemic will continue to impact the public spending on healthcare and drugs negatively throughout 2021. However, even in these challenging times, we strive for beating market growth. Panchsheel has established world-class formulation manufacturing facilities. These facilities leveraged state-of-the-art technologies, best practices and stringent regulatory compliances. These Centers of Excellence periodically reinforced their commitment to create products of the highest quality.

INTERNAL FINANCIAL CONTROLS AND RISK MANAGEMENT

The Company has in place adequate internal financial controls with reference to the financial statements. The Company's internal control system is designed to ensure operational efficiency, protection and conservation of resources, accuracy and promptness in financial reporting and compliance with the applicable laws and regulations.

The Company has a robust Business Risk Management framework to identify and evaluate business risks and opportunities. This framework seeks to create transparency, minimize adverse impact on the business objectives and enhance the Company's competitive advantage. The business risk framework defines the risk management approach across the enterprise at various levels including documentation and reporting. The framework has different risk models which help in identifying risks

trend, exposure and potential impact analysis at a Company level as also separately for business. The Company has adopted a Risk Management Policy.

HUMAN RESOURCES

The key to the Company's agility and success is, of course, its highly dedicated people. The focus of the Company is on attracting, engaging and developing talented people who share their vision and values. Therefore, the Company offers innovative programs, benefits and resources that address the diverse needs of employees, reward their efforts, help them build their best careers at Panchsheel.

CORPORATE GOVERNANCE

Corporate Governance Report and Certificate from the Statutory Auditors of the Company on compliance with the conditions of Corporate Governance pursuant to the requirements of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, form a part of this Report.

PUBLIC DEPOSITS

The company has not accepted any deposits covered under Chapter V of the Companies Act, 2013 ("the Act"). Accordingly, there is no disclosure or reporting required in respect of details relating to deposits.

Form No. MR-3
Secretarial Audit Report

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014

For the Financial Year ended 31st March, 2021

To,
The Members,
Panchsheel Organics Limited.

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by M/s **Panchsheel Organics Limited** (hereinafter called the Company).

Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the company has, during the audit period covering the financial year ended on 31st March, 2021 has complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2021 according to the provisions of:

- I. The Companies Act, 2013 (the Act) and the rules made thereunder;
- II. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- III. The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- IV. Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- V. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):

- a. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

MANAGEMENT DISCUSSION AND ANALYSIS

INTRODUCTION AND OVERVIEW OF PHARMACEUTICAL INDUSTRY

The pharmaceutical industry plays a unique role in improving the lives of the patients. It is also one of the world's fastest growing industries and amongst the biggest contributors to the world economy.

CMS estimates retail spending on prescription drugs at 9.2% of NHE in 2018 and projects that this share will fall to 9.0% by 2028. We estimate that non - retail drug spending accounted for an additional 4.5% of NHE in 2018, growing to 4.9% by 2028.

GLOBAL ECONOMY

FY 2020-21 has been an unprecedented year in modern times, with the COVID-19 pandemic impacting human life extensively across the globe. Its impact on the economic front too has been significant. The slowdown across economies witnessed in 2019 exacerbated further in 2020 by the shock delivered by the pandemic. As a result, the global GDP is believed to have contracted by ~3.3% in 2020 with all major economies moving into negative territory. China was the only exception amongst the major economies to have posted a positive growth in 2020, albeit at a much lower rate of 2.3%. The economic upheaval could have been much more severe had it not been for the quick and synchronized response from the central banks and governments globally, although this too varied across countries. The increase in balance sheet sizes of almost all the central banks and the supportive measures undertaken by governments globally ensured easy availability of funding and support for both private and public consumption. This support has been instrumental in the progressive recovery seen in the last two quarters of the calendar year as compared to the significant contractions observed in the first two quarters. The sequential recovery in global trade coupled with easy liquidity conditions have also led to a sharp rise in commodity prices, especially in the last quarter of FY 2019-20. This has been further aggravated by large-scale disruptions in the global supply chain, with shipping line capacities and container availability posing a major challenge.

INDIAN ECONOMY

The Indian economy too witnessed similar stress with the nationwide lockdown beginning from end of March 2020 bringing business activities to a standstill for the major part of April and May 2020. An accommodative Monetary Policy of the Reserve Bank of India (RBI) and Fiscal Policy interventions by the Central Government, coupled with the gradual reopening of the economic activities from June 2020, have led to a sequential recovery in economic output. India's real GDP clocked a 0.4% growth in the October-December 2020 quarter on a year-on-year basis after a sharp fall in the first two quarters of FY 2020-21. However, the recovery is largely centered around the formal

part of the economy. The informal players, especially the Micro, Small and Medium-sized Enterprises (MSMEs) in many industries have taken a disproportionately large hit. Inflation picked up over the year, despite the pandemic, primarily led by food inflation and higher fuel taxes. On the exchange rate front, post the initial bout of depreciation in the Indian currency in the beginning of the financial year, the currency has been relatively well supported on account of robust portfolio inflows in the economy as well as a better current account position.

INDUSTRY STRUCTURE AND DEVELOPMENT

The active pharmaceutical ingredients market size is slated to grow by \$ 60.56 billion between 2020-2024. Asia was the largest market for API in 2019, and the region will continue to offer maximum growth opportunities to market vendors during 2020-2024. The growing partnerships between Asian API manufacturers and global vendors, along with policy revamp in the region, preferring intellectual properties, will significantly encourage the API market growth in Asia. Almost 66% of the market's growth will originate from Asia. Japan, China, and India are the key markets for active pharmaceutical ingredients in Asia. The increased healthcare expenditure by the urban population and rapid surge in the aged population are influencing the APIs market growth, which has led to an increase in the number of DMF filings for APIs.

SMEs IN THE PHARMA INDUSTRY

The MSME sector is one of the major generators of employment and is also a significant contributor to the overall growth of the country's economy. The MSME sector contributes Rs. 20 lacs crores to Goods & Services, contributing to 40 per cent of GDP of India. Similarly, in Indian Pharma industry, about 60 per cent of the manufacturing is contributed by MSMEs within an annual turnover of approximately Rs. 60,000 crores or \$9 billion which is an integral part of predominantly formulations and to an extent API industry more so for intermediates. The industry is extremely fragmented with approximately 24,000 units in the MSME sector accounting for 70 per cent of production by volume and 50 per cent by value on ex-factory basis. SMEs contribute to almost 90 per cent to domestic formulation and about 50 per cent to exports." (Source: *Express Pharma*)

INDIAN PHARMA INDUSTRY

The pharmaceutical industry in India, US\$40 billion by value, is world's 3rd largest by overall volume and world's largest as provider of generic medicines, with 20% and 3.5% share of total global pharmaceutical exports by volume and value respectively to more than 200 countries and territories, as in 2021. With industry standards compliant, mega production capabilities and a large number of skilled domestic workforce, Indian exports meet the standards and requirements of highly regulated markets of USA, UK, European Union and Canada. According to the Department of Pharmaceuticals and Ministry of Chemicals & Fertilizers, domestic pharmaceutical market turnover reached Rs.129,015 crore (US\$18.12 billion) in 2018, growing 9.4 per cent year-on-year and exports revenue was US\$17.28 billion in FY18 and US\$19.14 billion in FY19.

As of 2021, most of pharmaceuticals made in India are low cost generic drug which comprise most of pharmaceutical exports of India. Patented medicines are imported.

active pharmaceutical ingredients (APIs) are imported from China (66% supplies by volume worth US\$2.4 billion) and Germany (US\$1.6 billion) as well as from US, Italy and Singapore. To foster an Atmanirbhar Bharat by enhancing the R&D, Make in India product development and high-value production capabilities, import substitution and domestic manufacture of APIs, the government has introduced a US\$2 billion incentive program which will run from 2021-22 to 2027-28. In 2019 the Department of Pharmaceuticals announced that as a part of the Make in India initiative, drugs for local use and exports must have 75% and 10% local APIs respectively and a bill of material must be produced for verification.

IMPACT OF COVID-19 ON THE INDUSTRY

The coronavirus pandemic and its resultant lockdown badly affected all major sectors of the economy, but it has come as a boon in disguise to the Indian pharmaceutical sector. Though some part of pharmaceutical business was affected such as supply chain and import of active pharmaceutical ingredients from China, CoVID-19 has provided some opportunities in the pharmaceutical sector, especially India.

In generic market, India is facing high competition from China for the supply of APIs at lower cost. India imports 70 per cent of the API needs from China. This created a lot of hardship to some of the domestic pharmaceutical firms manufacturing certain key APIs. India's health security was under threat due to heavy dependence on China coupled with shortage in supply of key APIs.

Some of the key APIs were crucial to mitigate the burden of accelerating disease like tuberculosis, diabetics and cardiovascular diseases in India. The current dependence of Indian pharmaceutical companies on Chinese APIs created a serious concern for national health security, prompting the GOI to set up a taskforce for reviewing the internal API sector.

In view of the Covid-19 pandemic situation, the GOI has taken important steps by proposing an incentive package of Rs. 13.76 billion for the promotion of domestic manufacturing of critical key starting materials, drug intermediates, APIs and medical devices.

SEGMENT-WISE PERFORMANCE

The operation of the Company consists of a single segment. Our Company deals in bulk drugs. Hence, Accounting Standard (AS-17) on Segment Reporting issued by the Institute of Chartered Accountants of India does not apply.

OUTLOOK

The likely duration, intensity and spread of the corona virus has brought in a lot of uncertainty into the global and domestic economic outlook. The concerns have transformed from the initial impact of imports from China on the domestic supply chains to the domestic and external demand shock.

The duration of the same remains uncertain with social distancing and lockdowns raising the prospects of production shutdowns and job losses in some sectors. A revival in domestic investment is likely to be hindered, given the increased risk aversion on a global scale, and renewed concerns about resilience of the financial sector.

In the near term, the negative impact of the Covid-19 outbreak on economic growth and sentiment may be modestly mitigated by higher government spending, a brighter outlook for crop yields and emergency stockpiling of essential items. Furthermore, the fall in commodity prices would provide mild cushioning to earnings in the near term, which provides some comfort.

FACTORS THAT MAY AFFECT OUR RESULT OF OPERATIONS

Our financial conditions and results of operations are affected by numerous factors inter alia-

- Growth of unorganized sector and threat from local regional players;
- Change in freight and forwarding charges;
- General economic and business conditions;
- Our Company's ability to successfully implement our growth strategy;
- Fluctuation in Exchange rates;
- Prices of raw materials we consume and the products we manufacture;
- Changes in laws and regulations relating to the industry in which we operate;
- Changes in political and social conditions in India.

PANCHSHEEL ORGANICS SWOT ANALYSIS

- STRENGTHS

- Extensive experience in specialty chemicals and pharmaceutical intermediates;
- Stronger sustainability and compliance framework with thrusts to continuously improving and adding on to it;
- Export sales in more than 15 countries;
- Sound manufacturing capability of APIs;
- Strategic location of manufacturing units with easy access to raw materials and utilities.

- WEAKNESS

- Products are highly dependent on the availability of raw materials;
- Macro factors may expose various risks impacting the growth;

- Global nature of operations like unfavorable currency movements, etc, expose the business to losses.

- OPPORTUNITIES

• Domestic Markets

The Company has a wide range of pharmaceutical products in its portfolio. The Company tries and taps every lawful opportunity coming it's way and follows a focused approach and increases marketing efforts. All these have resulted in increased growth of the Company in the recent years. In the coming years, it shall strive hard to build a strong reputation for themselves and carve a niche for our products.

• International Markets

The Company is continuously trying to build a large overseas business and revenue from export business accounts for a sizeable component of Company's total turnover. The Company is continuously tapping potentially new markets and exporting a wide range of products to these countries.

- THREATS

- Due to emergence of corona virus, API production has been hampered in China, which has impacted the Company's supply chain;
- Other low-cost countries such as China and Israel are affecting outsourcing demand for Indian pharmaceutical products;
- Entry of foreign players (well-equipped technology-based products) into the Indian market;
- Drug Pricing: The domestic pharmaceutical industry is very much dependent on the government's Drug Pricing Policy. It is important for the Government to introduce free and fair competition rather than arbitrary drug control measures to decide prices of essential drugs.

This will ensure that Companies like us can manufacture and market all the vital life-saving drugs at economical prices;

- Rising Costs and Availability of Materials;
- The prices of many API's and intermediates have risen significantly due to restriction in production by various Chinese manufacturers. Other factors contributing to such price hike are rise in price of petroleum-based products, frequent shortages and general inflationary conditions.

All these adversely affect the production schedules and overall margins of our Company's products.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

6. Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

7. Other Matters

The Company is required to appoint Internal Auditor as per the requirement of section 138 read with Rule 13 of Companies (Accounts) Rules, 2014, but has not appointed any during the year under audit.

The records of fixed assets as per requirements of clause I of Companies (Auditor's Report) Order, 2016 ("the Order"), are still under preparation.

8. Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

9. As required by Section 143(3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the director is disqualified from being appointed as a director in terms of section 164(2)(a) of the Companies Act, 2013 as on 31st March, 2021.

- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure A”.
- (g) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 25 to the financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company

Annexure-A to the Independent Auditors Report

Referred to in paragraph 9(f) of the Independent Auditors' Report of even date to the members of Panchsheel Organics Limited on the Ind AS financial statements for the year ended March 31, 2021

Report on the Internal Financial Controls over financial reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. We have audited the internal financial controls over financial reporting of Panchsheel Organics Limited ("the Company") as of March 31, 2021 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial control, both applicable to an audit of internal financial control and both issued by ICAI. Those Standards and the Guidance Note require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over

financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, *subject to our note no.7 Other Matter of the main report*, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company - commensurate with the size of the company and nature of its business

considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Referred to in paragraph (7) of the Independent Auditors Report of even date to the members of Panchsheel Organics Limited on the Ind AS financial statements for the year ended March 31, 2021

I (a) *The records of the Company for fixed assets showing full particulars including quantitative details and situations of fixed assets are still under preparation.*

(b) According to the information and explanation, in absence of records, in our opinion it is difficult to report on whether any material discrepancies have been noticed and properly dealt with in the books of accounts. According to management representation, the management claims that they have verified the fixed assets during the year, and due to proper internal control at the factory there are no chance of discrepancies. As informed to us the management is trying their best to prepare records of fixed assets as required but has not done since last three years.

(c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immoveable properties other than self-constructed properties, are held in the name of the Company.

II As per the information furnished, the inventories have been physically verified by the management during the year once in a year, having regard to the nature of stocks, the frequency of the physical verification is reasonable, discrepancies noticed on physical verification of inventories as compared to book records have been properly dealt with in the books of accounts..

III As per the information furnished and from verification of the records, we are of the opinion that, the Company has not granted any interest free loans to Companies, firms or other parties covered in the Register, maintained under Section 189 of the Companies Act, 2013; hence para 3(a),(b),(c) of the order is not applicable.

IV In our opinion, and according to the information and explanations given to us and from verification of the records, the Company has not granted any loans or provided any guarantee or security to the parties covered under section 185. Further the Company has complied with the provisions of section 186 of the Companies Act, in respect of the loans and investments made, and guarantees and security provided by it.

V The Company has not accepted any deposits during the year from the public within the meaning of the provisions of Sections 73 to 76 of the Companies Act, 2013 and the rules framed there under.

VI As per the information provided and from verification of the records, We are of the opinion that, the Central Government has specified the maintenance of cost records under Section 148(1) of the Companies Act, 2013, and the Company has made and maintain such accounts and records. Cost audit is applicable to the Company and company has appointed M/s. Talati & Associates, Cost Auditor, but the audit is not completed and report has not been produced till the date of this report.

VII (a) According to the information and explanation given to us and the records of the Company examined by us, in our opinion, the Company is generally regular in

depositing undisputed statutory dues including Provident Fund, Employees' State Insurance Fund, Income-tax, Sales-tax, service tax, Custom Duty, Excise Duty, Cess and other material statutory dues as applicable with appropriate authorities.

Notes to financial statements

Significant accounting policies

1. Company Overview:

Panchsheel Organics Limited (the 'Company') is a public limited Company domiciled in India having its registered office address at B6 & B7, Sector C, Industrial Estate, Sanwer Road, Indore - 452015, MP. The company is listed on Bombay Stock Exchange (BSE). The company's principal business is manufacturing and trading of Bulk Drugs and Intermediaries.

2(A) Summary of significant accounting policies

2.01 Basis of preparation

a) Compliance with Indian Accounting Standards (Ind AS)

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 ("the Act") [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

b) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following items:

Items	Measurement Basis
Certain financial assets and liabilities	Fair Value
Net defined benefit (asset)/liability	Fair Value of plan assets less present value of defined benefit obligations

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions, regardless of whether that price is directly observable or estimated using another valuation technique. In determining the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

c) Current versus non-current classification

All the assets and liabilities have been classified as current or non-current as per the company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of the products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its

Notes to financial statements (Continued)

Significant accounting policies (Continued)

operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

2.02 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). Chairman and Managing Director of the Company have been identified as CODM. They assess the financial performance and position of the Company and make strategic decisions.

2.03 Foreign Currency Transactions

a) Functional and presentation currency

The financial statements are presented in Indian Rupees (INR), which is the Company's functional and presentation currency.

b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the Statement of Profit and Loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Non-monetary items that are measured at historical cost in foreign currency are translated using the exchange rate at the date of the transaction.

2.04 Revenue Recognition

a) Sale of Goods

Revenue is recognized when the control of goods is transferred to the customers, this is when the goods are delivered to the customer. Control lies with the customer if the customer can independently determine the use of and consume the benefit derived from goods or services. Revenue from delivery of goods is recognized based on an overall assessment of the existence of a right to payment, the transfer of physical possession, risks and rewards and acceptance by the customers.

**Notes to financial statements (Continued)****Significant accounting policies (Continued)**

Revenue is reduced by Goods and Service Tax. Revenue reflects actual transaction value. There are no reconciliation items.

b) Export incentives

Benefits on account of entitlement of export incentives are recognized as and when the right to receive is established.

c) Interest income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the amortized cost and at the effective interest rate applicable.

d) Dividend income

Dividend income is recognized when the right to receive is established.

2.05 Borrowing costs

General and specific borrowing costs that are attributable to the acquisition, construction or production of a qualifying asset are capitalized as a part of the cost of such asset till such time the asset is ready for its intended use or sale and borrowing costs are being incurred. Qualifying assets are assets that necessarily take a substantial period of time to get ready for its intended use. All other borrowing costs are recognized as an expense in the period in which they are incurred.

2.06 Leasing - As a lessee**Ind AS 116 - Leases:**

Ind AS 116 Leases replaces existing lease accounting guidance i.e. Ind AS 17 Leases. It sets out principles for recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases, except short-term leases and leases for low-value items, under a single on-balance sheet lease accounting model. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments.

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the site on which it is located, less any lease incentives received. Certain

**Notes to financial statements (Continued)****Significant accounting policies (Continued)**

lease arrangements include the option to extend or terminate the lease before the end of the lease term.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole.

Lease payments included in the measurement of the lease liability comprises of fixed payments, including in-substance fixed payments, amounts expected to be payable under a residual value guarantee and the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option.

The lease liability is subsequently re-measured at amortized cost using the effective interest method. It is re-measured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is re-measured in this way, a corresponding adjustment is made to the carrying amount of the right of- use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Lease liability and the right of use asset have been separately presented in the balance sheet and lease payments have been classified as financing activities.

The Company has elected not to recognize right-of-use assets and lease liabilities for short term leases that have a lease term of less than or equal to 12 months with no purchase option and assets with low value leases. The Company recognizes the lease payments associated with these leases as an expense in statement of profit and loss over the lease term. The related cash flows are classified as operating activities.

**Notes to financial statements (Continued)****Significant accounting policies (Continued)****2.07 Employee benefits****a) Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

b) Post employee obligations

The Company operates the following post-employment schemes:

- defined benefit plans such as gratuity
- defined contribution plans such as provident fund

i) Gratuity obligations

The liability or asset recognized in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is determined at the yearend by independent actuary using the projected unit credit method.

The present value of the defined benefit obligation denominated in Indian Rupees is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity. Re-measurements are not reclassified to profit and loss in the subsequent periods.

Notes to financial statements (Continued)
Significant accounting policies (Continued)

ii) Defined contribution plans

Provident fund

The Company pays contributions toward provident fund to the regulatory authorities as per local regulations where the Company has no further payment obligations. The contributions are recognized as employee benefit expense when they are due.

c) Bonus plans

The Company recognizes a liability and an expense for bonuses. The Company recognize a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

2.08 Current and deferred tax

Income tax expense or credit represents the sum of the current tax and deferred tax.

Current and deferred tax is recognized in the Statement of Profit and Loss except to the extent it relates to items recognized in 'Other comprehensive income' or directly in equity, in which case it is recognized in 'Other comprehensive income' or directly in equity, respectively

Current tax

Current tax payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the Statement of profit and loss because some items of income or expense are taxable or deductible in different years or may never be taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority. The Company periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax

Deferred tax is the tax expected to be payable or recoverable in the future arising from temporary differences between the carrying amounts of assets and liabilities in the balance sheet and the corresponding tax bases used in the computation of taxable profit. It is accounted for using the balance sheet liability

**Notes to financial statements (Continued)**
Significant accounting policies (Continued)

method. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilized. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realized, based on tax rates that have been enacted or substantively enacted by the reporting date.

A deferred tax asset shall be recognized for the carry-forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilized.

Deferred income tax assets and liabilities are off-set against each other and the resultant net amount is presented in the Balance sheet, if and only when, (a) the Company currently has a legally enforceable right to set-off the current income tax assets and liabilities, and (b) when the Deferred income tax assets and liabilities relate to income tax levied by the same taxation authority.

Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss).

The carrying amount of deferred tax assets is reviewed at each reporting date and adjusted to reflect changes in probability that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

2.09 Property, plant and equipment

All items of property, plant and equipment ("PPE") are stated at historical cost less accumulated depreciation less accumulated impairment losses. The cost of property, plant and equipment includes purchase price including import duties, non-refundable taxes and expenditure that is directly attributable to acquisition and installation, cost of dismantling and removing the item and restoring the site on which it is located.

Capital work in progress is carried at cost, less any recognized impairment loss. Depreciation of these assets commences when the assets are substantially ready for their intended use. Advances given towards acquisition or construction of PPE outstanding at each reporting date are disclosed as Capital Advances under "Other non-current Assets".

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic

Notes to financial statements (Continued)

Significant accounting policies (Continued)

benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to the statement of profit and loss during the reporting period in which they are incurred.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in statement of profit and loss.

Depreciation methods, estimated useful lives and residual value

Depreciation is provided on a pro-rata basis on the written down value method (WDV) to allocate their cost, net of their residual values, over their estimated useful lives as per technical evaluation. Estimated useful lives of the assets thereof are as under:

Assets class	Useful life in years
Building	30
Plant and Equipment	15
Laboratory / Testing	15
Furniture and Fixtures	10
Office Equipment	5
Vehicles	8
Computers	3

Estimated useful lives, residual values and depreciation methods are reviewed annually, taking into account commercial and technological obsolescence as well as normal wear and tear and adjusted prospectively, if appropriate.

2.10 Impairment of non-financial assets

Non-financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-

Notes to financial statements (Continued)

Significant accounting policies (Continued)

financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

2.11 Government grants

Government grant is recognized only when there is a reasonable assurance that the entity will comply with the conditions attaching to them and the grants will be received. Government grant related to assets is recognized as deferred income which is recognized in the statement of profit & loss on systematic basis over the useful life of the assets.

2.12 Inventories

Inventories are stated at the lower of cost and net realizable value. Cost of raw materials, packing materials and fuels comprises cost of purchases. Cost of work-in progress and finished goods comprises direct materials, direct labor, other direct costs and related production overheads. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Cost is determined using the first in first out (FIFO). Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

However, these items are considered to be realizable at cost if the finished products, in which they will be used, are expected to be sold at or above cost.

2.13 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, demand deposits with banks, short-term highly liquid investments with an original maturity of three months or less that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.14 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

i) Classification

The Company classifies its financial assets in the following measurement categories:

Notes to financial statements (Continued)

Significant accounting policies (Continued)

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss),
- those measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in statement of profit or loss or other comprehensive income.

For investments in debt instruments, this will depend on the business model in which the investment is held.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through statement of profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through statement of profit or loss are expensed in statement of profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost is recognized in statement of profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue

Notes to financial statements (Continued)

Significant accounting policies (Continued)

and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to statement of profit or loss and recognized in other income. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through statement of profit or loss (FVTPL): Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through statement of profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through statement of profit or loss is recognized in statement of profit or loss in the period in which it arises. Interest income from these financial assets is included in other income.

iii) Impairment of financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through statement of profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, credit risk is considered to be low.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of the receivables. As a practical expedient, the company uses a provision matrix to determine impairment loss of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. The ECL loss allowance (or reversal) during the year is recognized in the statement of profit and loss.

iv) De-recognition of financial assets

A financial asset is derecognized only when:

- the Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the

**Notes to financial statements (Continued)****Significant accounting policies (Continued)**

entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

v) Trade Receivable

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment.

Financial Liabilities**i) Classification**

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

ii) Measurement

Financial liabilities are initially recognized at fair value, reduced by transaction costs (in case of financial liability not at fair value through statement of profit or loss), that are directly attributable to the issue of financial liability. After initial recognition, financial liabilities are measured at amortized cost using effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash outflow (including all fees paid, transaction cost, and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition. At the time of initial recognition, there is no financial liability irrevocably designated as measured at fair value through statement of profit or loss.

iii) De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial

**Notes to financial statements (Continued)****Significant accounting policies (Continued)**

liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

iv) Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in statement of profit or loss over the period of the borrowings using the effective interest method.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in statement of profit or loss.

v) Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the company prior to the end of financial year which are unpaid. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

2.15 Provisions and contingent liabilities**Provision**

Provisions are recognized when the company has a present legal or constructive obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation

Notes to financial statements (Continued)

Significant accounting policies (Continued)

and amount of the obligation can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the management's best estimate of the expenditure required to settle the present obligation at the Balance sheet date. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as an interest expense.

Contingent liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent Assets

A contingent asset is disclosed, where an inflow of economic benefits is probable.

2.16 Earnings per share

Basic earnings per share is calculated by dividing the profit or loss attributable to owners of the Company by the weighted average number of equity shares outstanding during the financial year. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted earnings per share, adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

2.17 Recent pronouncements

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from

Notes to financial statements (Continued)

Significant accounting policies (Continued)

April 1, 2021. The amendments are extensive and the Company will evaluate the same to give effect to them as required by law.

2.18 Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

2(B) Critical estimates and judgements

The preparation of financial statements requires the use of accounting estimates. Management also needs to exercise judgement in applying the Company's accounting policies. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. The areas involving critical estimates or judgements are:

a) Estimation of Provisions & Contingent Liabilities

The Company exercises judgement in measuring and recognizing provisions and the exposures to contingent liabilities which is related to pending litigation or other outstanding claims. "If a loss arising from these litigations and/or claims is probable and can be reasonably estimated, the management record the amount of the estimated loss. "If a loss is reasonably possible, but not probable, the management discloses the nature of the significant contingency and, if quantifiable, the possible loss that could result from the resolution of the matter. "As additional information becomes available, the management reassess any potential liability related to these litigations and claims and may need to revise the estimates. "Such revisions or ultimate resolution of these matters could materially impact the results of operations, cash flows or financial statements of the company. (Refer Note 25)

b) Estimation of current tax expense and deferred tax

The calculation of the Company's tax charge necessarily involves a degree of estimation and judgement in respect of certain items whose tax treatment cannot be finally determined," until resolution has been reached with the relevant tax authority or, as appropriate, through a formal legal process. The final resolution of some of these items may give rise to material adjustment to taxable profits/losses (Refer Note 22)

Recognition of deferred tax assets/ liabilities

The recognition of deferred tax assets/ liabilities is based upon whether it is more likely than not that sufficient taxable profits will be available in the

**Notes to financial statements (Continued)**
Significant accounting policies (Continued)

future against which the reversal of temporary differences will be offset. To determine the future taxable profits, the management considers the nature of the deferred tax assets, recent operating results, future market growth, forecasted earnings and future taxable income in the jurisdictions in which the company operate. (Refer Note 8)

c) Useful lives of property, plant and equipment

The Company reviews the estimated useful lives of property, plant and equipment at the end of each reporting period or even earlier in case, circumstances change such that the recorded value of an asset may not be recoverable. The estimate of useful life requires significant management judgment and requires assumptions that can include: planned use of equipments, future volume trends, revenue and expense growth rates and annual operating plans, and in addition, external factors such as changes in macroeconomic trends which are developed in connection with the Company's long-term strategic planning.

d) Employee benefit plans

The Company's obligation on account of gratuity and compensated absences is determined based on actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases are based on expected future inflation rates. Further details about gratuity obligations are given in note (Refer Note 30A)

Particulars	As at March 31, 2021	As at March 31,2020
Discount rate	6.80%	6.80%
Salary Growth rate	5.00%	5.00%

The discount rates reflects the prevailing market yields of Indian Government securities as at the Balance Sheet date for the estimated term of the obligations.

The estimates of future salary increases, considered in actuarial valuation, takes into account, inflation, seniority, promotions and other relevant factors, such as demand and supply in the employment market.

The expected rate of return of plan assets is the Company's expectation of the average long term rate of return expected on investments of the fund during the estimated term of the obligations.

Sensitivity Analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions by 0.5% is:

**Notes to the Financial Statements (continued)**

(Currency: Indian Rupees in Lakhs)

a) Impact of the change in discount rate

Present Value of Obligation at the end of the period	158.96
a) Impact due to increase of 0.50%	(5.51)
b) Impact due to decrease of 0.50%	5.94

b) Impact of the change in salary increase

Present Value of Obligation at the end of the period	158.96
a) Impact due to increase of 0.50%	6.02
b) Impact due to decrease of 0.50%	(5.63)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied which has been used for calculating the defined benefit liability recognized in the Balance Sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

Expected Contribution to the Fund in the next year:

Particulars	As at March 31, 2021	As at March 31, 2020
Gratuity	23.11	45.33

iv) Risk Exposure

The Gratuity scheme is a final salary Defined Benefit Plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The risks commonly affecting the defined benefit plan are expected to be:

Demographic Risk: This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

Salary Inflation Risk : Higher than expected increases in salary will increase the defined benefit obligation

Interest-Rate Risk: The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

v) Defined Benefit Liability and Employer Contributions

The company considers that the contribution rates set at the last valuation date are sufficient to eliminate the deficit over the agreed period and that regular contributions, which are based on service costs, will not increase significantly.

The expected maturity analysis of undiscounted gratuity is as follows:

(ii) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognized and measured at fair value and (b) measured at amortized cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level is as follows.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Notes to the Financial Statements (continued)

(Currency: Indian Rupees in Lakhs)

iii) Fair value of financial assets and liabilities measured at amortized cost

The carrying amounts of Investments, deposits with banks and interest there on, trade receivables, cash and cash equivalents, loans to employees, borrowings, trade payables and other current financial liabilities are considered to be the same as their fair values due to their short-term nature.

The fair values of security deposits and other advances are based on discounted cash flows. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk. Fair value of the security deposit and other advances are considered to be the same as their carrying value.

37 FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The market risk to the Company is foreign exchange risk and interest rate. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer end.

37A CREDIT RISK

Credit risk comprises of direct risk of default, the risk of deterioration of creditworthiness as well as concentration risks. It mainly arises from trade receivables, cash and cash equivalents (excluding cash on hand) and bank deposits.

(i) Credit risk management

a) Trade receivables

The carrying amount of trade receivables represent the maximum credit exposure net of provision for impairment. The maximum exposure to credit risk was Rs. 2,304.85 lakhs as of March 31, 2021 (March 31, 2020: Rs. 2,251.70).

Trade receivables are derived from revenue earned from customers. Credit risk for trade receivable is managed by the company through credit approvals, establishing credit limits and periodic monitoring of the creditworthiness of its customers to which the company grants credit terms in the normal course of business. The Company's credit period generally ranges from 90-120 days.

The company does not have a high concentration of credit risk to a single customer. Single largest customer has the total exposure in receivables Rs. 106.60 lakhs as of March 31, 2021 (March 31, 2020: Rs. 126.81 lakhs).

As per simplified approach, the company uses a provision matrix to compute the expected credit loss allowance for trade receivables. The provision matrix takes into account a continuing credit evaluation of company's customers' financial condition; aging of trade accounts receivable and the company's historical loss experience. The company defines default as an event when there is no reasonable expectation of recovery. The company has not made any provision for loss allowance in any of the years presented.

Trade receivables are written off when there is no reasonable expectation of recovery.

b) Cash & cash equivalent and bank deposits

Credit risk on cash and cash equivalents and bank deposits is generally low as the said deposits have been made with banks having good reputation, good past track record and high quality credit rating and company also reviews their credit-worthiness on an on-going basis.

c) Other financial assets

Credit risk on other financial assets is generally considered to be low.

Interest rate - decrease by 50 basis points	1.15	2.07

37C LIQUIDITY RISK

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities (comprising the undrawn borrowing facilities below), by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The liquidity risk is managed by means of the ultimate parent company's Liquidity and Financial Indebtedness Management Policy, which aims to ensure the availability of sufficient net funds to meet the Company's financial commitments with minimal additional cost. One of the main liquidity monitoring measurement instruments is the cash flow projection, using a minimum projection period of 12 months from the benchmark date.

(i) Financing arrangements

The Company has undrawn borrowing facilities of Rs. 101.60 lakhs as at March 31, 2021 (Rs. 228.79 lakhs as at March 31, 2020) which is renewable on yearly basis by mutual consent. Undrawn credit facilities comprises of fund based and non-fund based.

(ii) Maturities of financial liabilities

The following table shows the maturity analysis of the company's financial liabilities based on the contractually agreed undiscounted cash flows as at the Balance Sheet date.

38 CAPITAL MANAGEMENT

The company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure of the Company, management can make, or may propose to the stockholders when their approval is required, adjustments to the amount of

dividends paid to stockholders, return capital to stockholders, issue new shares or sell assets to reduce, for example, debt.

The Company considers total equity reported in the financial statements to be managed as part of capital. The Company does not have any borrowing which is subject to the capital requirements.

Transition to New Standards

The Company has elected not to recognize right-of-use assets and lease liabilities for short term leases that have a lease term of less than or equal to 12 months with no purchase option and assets with low value leases. The Company recognizes the lease payments associated with these leases as an expense in statement of profit and loss over the lease term. The related cash flows are classified as operating activities.

41 EXPENDITURE TOWARDS CORPORATE SOCIAL RESPONSIBILITY

As per Section 135 of the Companies Act, 2013, a company, meeting the applicability threshold, needs to spend at least 2% of its average net profit for the immediately preceding three financial years on corporate social responsibility (CSR) activities. The areas for CSR activities are eradication of hunger and malnutrition, promoting education, art and culture, healthcare, destitute care and rehabilitation, environment sustainability, disaster relief, COVID-19 relief and rural development projects. A CSR committee has been formed by the Company as per the Act. The funds were primarily allocated to a corpus and utilized through the year on these activities which are specified in Schedule VII of the Companies Act, 2013:

Particulars	Year ended March 31, 2021	Year ended March 31, 2020
Gross amount required to be spent by the Company during the year	13.83	12.24

ii) On purposes other than (i) above	0.04	0.31
Total amount spent	0.04	0.31
Amount yet to spend	13.79	11.93

Consequent to the Companies (Corporate Social Responsibility Policy) Amendment Rules, 2021, the Company intends to transfer its unspent CSR fund to a designated bank account opened with Yes Bank Limited.

42 IMPACT OF COVID 19

The spread of COVID-19 has severely impacted business around the globe. In many countries including India, there has been severe disruption to regular business operations due to lock-down, disruptions in transportation, supply chain, travel bans, quarantines, social distancing and other emergency measures.

The Company has made detailed assessment of its liquidity position for the next one year and of the recoverability and carrying values of its assets comprising Property, Plant and Equipment, intangible assets, Trade Receivables, and Inventory as at the balance sheet date and has concluded that there is no material adjustments required in the financial statements.

Management believes that it has considered all the possible impact of known events arising from COVID -19 pandemic in the preparation of the financial Statements. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration. The Company will continue to monitor any material changes to future economic conditions.

43 Figures for the corresponding previous years have been regrouped/ rearranged, wherever necessary, to conform to the classification of the current year.
