MANAGEMENT DISCUSSION AND ANALYSIS

INTRODUCTION AND OVERVIEW

The pharmaceutical industry is expected to grow at 25% in 2017 & the domestic pharmaceutical market is estimated to touch US \$ 35 billion by 2017. The Indian pharmaceutical industry ranks among the top five countries by volume (production) further, estimated the healthcare market in India to reach US \$31.59 billion by 2020. Low cost of skilled manpower and innovations are some of the main factors supporting this growth. According to the Department of Pharmaceuticals, the Indian pharmaceutical industry employs about 440,000 people and an estimated 500,000 doctors and 500,000 chemists.

Rapidly changing global economic & business conditions and technological innovation are creating an increasingly competitive environment that is driving Companies to transform their operations globally. While the expectations of the customers have increased manifold, we are committed to satisfy the clients with improved quality and accelerated delivery schedules with a focus on developing long terms relationships and strengthening strategic partnerships.

Drugs and pharmaceutical industry plays a vital role in the economic development of a nation. It is one of the largest and most advanced sectors in the world, acting as a source for various drugs, medicines and their intermediates as well as other pharmaceutical formulations. Being the intense knowledge-driven industry, it offers innumerable business opportunities for the investors/ corporates the world over. The existence of well-defined and strong pharmaceutical industry is important for promoting and sustaining research and developmental (R&D) efforts and initiatives in an economy as well as making available the quality medicines to all at affordable prices. That is, it is essential to improve the health status of the individuals as well as the society as a whole, so that positive contributions could be made to the economic growth and regional development of a country.

INDUSTRY STRUCTURE AND DEVELOPMENT

The Indian drugs and pharmaceutical industry, over the years, has shown tremendous progress in terms of infrastructure development, technology base creation as well as product usage. On the global platform, India holds fourth position in terms of volume and thirteenth position in terms of value of production in pharmaceuticals. The pharmaceutical industry has been producing bulk drugs belonging to all major therapeutic groups requiring complicated manufacturing processes as well as a wide range of pharma machinery and equipments. It has also developed excellent 'good manufacturing practices' (GMP) compliant facilities for the production of different dosage forms. Besides, the amendment to the Patents Act, 1970 [enactment of Patents (Amendment) Act, 2005], has opened up new avenues for the sector. The new patent regime has ushered in the era of product patents for the pharmaceutical sector, in line with the obligations under the World Trade Organisation (WTO) and Trade-Related Aspects of Intellectual Property Rights (TRIPS) Agreement. As a result, the Indian pharmaceutical industry has become self-reliant in several areas and has developed a more sound and technologically advanced R&D segment.

The industry offers several opportunities for investments and trade owing to the following advantageous features:-

- Self-reliance displayed by the production of 70 per cent of bulk drugs and almost the entire requirement of formulations within the country;
- Low cost of production of quality bulk drugs and formulations
- Low R&D costs
- Strong scientific, innovative and technical manpower
- Excellent and world-class national laboratories specializing in process development and development of cost effective technologies
- Increasing balance of trade in pharma sector
- Efficient and cost effective source for procuring generic drugs, especially the drugs going off patent in the next few years
- Excellent centre for clinical trials in view of the diversity in population
- Fast growing biotech industry which has great potential in the international market
- Apart from its strengths in manufacturing and exporting allopathic medicines, the systems of medicines like Ayurveda, Unani, Siddha, Yoga, Naturopathy and Homeopathy are also prevalent in the country.

The drugs and pharmaceutical is one of the most diversified of all the industrial sectors. The accumulated knowledge of traditional medicinal system and large bio-diversity of India offers great advantage to the drug industry. The rapidly changing economic, trade and intellectual property scenario, nationally and internationally, poses many challenges to it, including the challenge of becoming leaders and competitors globally. This necessitates a shift in the approach of the industry, that is moving away from manufacturing only known drugs to discovering and commercialising new molecules through innovative process routes. It would mean that the Indian pharma industry has to focus more on R&D, so as to enable India to maintain its status in the world pharma market and move ahead to become a global leader. In other words, the strength of the industry lies in leveraging the country's power in organic synthesis and process engineering as well as developing cost-effective technologies in the shortest possible time for drug intermediates and bulk activities, without compromising on quality.

—SMES IN THE PHARMA INDUSTRY

According to the Confederation of Indian Industries (CII), there are around 8,000 small and medium enterprises (SME) units, accounting for about 70% of the total number of the pharma units in India. Indian SMEs are also opening up for emerging opportunities in the pharmaceutical industry in the field of CRAMS, clinical research etc. These would drive them to play a definitive role in the transitional global pharmaceutical environment, where a sizeable number of drugs are expected to go off patent in the coming years. The Indian government has been making every attempt to support SMEs through several incentives. One such effort is the development of SME clusters in various parts of the country.

INVESTMENT IN THE INDIAN PHARMACEUTICAL INDUSTRY

100% foreign direct investment (FDI) is allowed under automatic route in the drugs and pharmaceuticals sector, including those involving use of recombinant technology. Also, FDI up to 100% is permitted for brownfield investments (i.e. investments in existing companies), in the pharmaceuticals sector, under the Government approval route. The drugs and pharmaceuticals industry attracted foreign direct investment to the tune of US\$ 22.17 BN for the period between April 2012 and January 2017.

FACTORS INFLUENCING GROWTH OF THE INDUSTRY

The Indian pharmaceutical industry ranks 14th in the world by value of pharmaceutical products. With a well-established domestic manufacturing base and low-cost skilled manpower, India is emerging as a global hub for pharma products and the industry continues to be on a growth trajectory. Moreover, India is significantly ahead in providing chemistry services such as analogue preparation, analytical chemistry and structural drug design, which will provide it ample scope in contract research and other emerging segments in the pharmaceutical industry. Some of the major factors that would drive growth in the industry are as follows:

- **Increase in domestic demand:** More than half of India's population does not have access to advanced medical services, as they usually depend on traditional medicine practices. However, with increase in awareness levels, rising per capita income, change in lifestyle due to urbanisation and increase in literacy levels, demand for advanced medical treatment is expected to rise. Moreover, growth in the middle class population would further influence demand for pharmaceutical products.
- **Rise in outsourcing activities:** Increase in the outsourcing business to India would also drive growth of the Indian pharmaceutical industry. Some of the factors that are likely to influence clinical data management and bio-statistics markets in India in the near future include: 1) cost efficient research vis-à-vis other countries 2) highly-skilled labour base 3) cheaper cost of skilled labour 4) presence in end-to-end solutions across the drug-development spectrum and 5) robust growth in the IT industry.
- **Growth in healthcare financing products:** Development in the Indian financial industry has eased healthcare financing with introduction of products such as health insurance policy, life insurance policy and cashless claims. This has resulted in increase in healthcare spending, which in turn, has benefitted the pharmaceutical industry.
- **Demand in the generics market:** During 2016-2017, prescription drugs worth about US\$ 600 bn are expected to go off patent, mostly from the US. Prior experience of Indian pharmaceutical companies in generic drugs would provide an edge to them.
- **Demand from emerging segments:** Some of the emerging segments such as contract research and development, biopharma, clinical trials, bio-generics, medical tourism and pharma packaging are also expected to drive growth of the Indian pharmaceutical industry.

Indian pharmaceutical industry: SWOT analysis

The SWOT analysis of the industry reveals the position of the Indian pharmaceutical industry in respect to its internal and external environment.

Strengths

- Low cost of innovation, manufacturing and operations
- Low cost of skilled manpower and proven track record in design of high technology manufacturing devices.

Weaknesses

- Stringent pricing regulations affecting the profitability of pharma companies
- Presence of more unorganised players versus the organised ones, resulting in an increasingly competitive environment, characterised by stiff price competition.

Opportunities

- Opening of the health insurance sector and increase in per capita income - the growth drivers for the pharmaceutical industry
- India, a potentially preferred global outsourcing hub for pharmaceutical products due to low cost of skilled labour.

Domestic Markets

The Company has a wide range of pharmaceutical products in its portfolio. We try and tap every lawful opportunity coming our way and follow a focused approach and increased marketing efforts. All these have resulted in increased growth of the Company in the recent years. In the coming years, we shall strive hard to build a strong reputation for ourselves and carve a niche for our products.

International Markets

The Company is continuously trying to build a large overseas business and revenue from export business accounts for a sizeable component of Company's total turnover. The Company is continuously tapping potentially new markets and exporting a wide range of products to these countries.

Threats

- Other low-cost countries such as China and Israel affecting outsourcing demand for Indian pharmaceutical products
- Entry of foreign players (well equipped technology-based products) into the Indian market.

Drug Pricing

The domestic pharmaceutical industry is very much dependent on the government's drug pricing policy. It is important for the Government to introduce free and fair competition rather than arbitrary drug control measures to decide prices of essential drugs.

This will ensure that Companies like us can manufacture and market all the vital life saving drugs at economical prices.

Rising Costs and Availability of Materials

The prices of many API's and intermediates have risen significantly due to restriction in production by various Chinese manufacturers. Other factors contributing to such price hike are rise in price of petroleum-based products, frequent shortages and general inflationary conditions.

All these adversely affect the production schedules and overall margins of our Company's products.

SEGMENT-WISE PERFORMANCE

The operation of the Company consists of the single segment. The Company deals in bulk drugs. Hence, Accounting Standard on Segment Reporting (AS-17) issued by Institute of Chartered Accountants of India does not apply.

OUTLOOK

The Indian economy has shown a substantial growth in the year 2016-17 and this will have a positive impact on all the sectors. However, to tap the full potential of this emerging opportunity, the domestic industry needs to improve its cost effectiveness, scale of operations and quality/reliability in order to be able to compete with other global suppliers in the export market.

Commodities prices have maintained their high volatility, making it difficult to take long-term view on prices. The appreciation of rupee against dollar has further been a cause of concern for exporters.

We are committed to deliver quality products on a consistent basis and at competitive prices. Our strategy has been to make optimum utilisation of the resources, raw materials, timely production and delivery schedules, safety of the workforce and finally develop strong customer relationship and thereby backing our prime motto to be a customer driven Company.

Factors that may affect our results of the operations

Our financial conditions and results of operations are affected by numerous factors inter alia—

- Growth of unorganized sector and threat from local regional players
- Change in freight and forwarding charges
- General economic and business conditions;
- Our Company's ability to successfully implement our growth strategy
- Fluctuation in Exchange rates.
- Prices of raw materials we consume and the products we manufacture;
- Changes in laws and regulations relating to the industry in which we operate;
- Changes in political and social conditions in India;

INDEPENDENT AUDITORS REPORT

To,
The Members of
PANCHSHEEL ORGANICS LIMITED

Report on the Financial Statements

We have audited the accompanying financial statements of Panchsheel Organics Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2017, and the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors' is responsible for the matters in Section 134(5) of the Companies Act, 2013 ("the act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules 2014. This responsibility also includes the maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities, selection and application of appropriate accounting policies, making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We have taken in to account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and operating effectiveness of such control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statement.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements, give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India: of the state of affairs of the Company as at 31st March, 2017, and its profit and its cash flows for the year ended on that date.

Report on the Internal Financial Controls over financial reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

I have audited the internal financial controls over financial reporting of Veer Energy & Infrastructure Limited ("the Company") as of March 31, 2017 in conjunction with my audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

My responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on my audit. I conducted my audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that I/we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

My audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. My audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

I believe that the audit evidence I/we have obtained is sufficient and appropriate to provide a basis for my audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In my opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on "the internal control over financial reporting criteria established by the Company - commensurate with the size of the company and nature of its business - considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTE NO- 27

SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY NOTES AND INFORMATION FORMING PART OF THE ACCOUNTS FOR THE YEAR ENDED 31ST MARCH, 2017

I: Significant Accounting Policies:

A. Basis of Preparation of financial statement

The financial statements have been prepared under the historical cost convention, in accordance with the generally accepted accounting principles (GAAP) and provisions of The Companies Act, 2013 read with the Companies (Accounts) Rules, 2014 as adopted consistently by the company, except where a newly issued Accounting Standards initially adopted or a revision in to an existing accounting standard requires a change in the accounting policy hitherto in use.

B. Basis of Accounting:

- a. The company follows the mercantile system of accounting.
- b. All income and expenditure items having material bearing on financial statement are recognized on accrual basis, except Dividend income and insurance claim, if any.

C. Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires judgments, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognised in the period in which the results are known / materialised.

D. Fixed Assets

- a. All fixed assets are valued at cost of acquisition/ construction. The cost of fixed assets comprises of its purchase price and attributable costs, including finance cost, of bringing the assets to its working condition for its intended use.
- b. The expenses incurred during construction period, incidental to the Expansion / New Project are allocated to respective Fixed Assets in the year of commencement of the commercial operation.

E. Depreciation

- a. Depreciation on fixed assets is provided on the "Written down Value Method" at the rates and in the manner prescribed under Schedule XIV of the Companies Act, 1956.
- b. Depreciation on Fixed Assets Purchased / Sold during the period is proportionately charged.

F. Investments

Long term investments are stated at cost, less provision for diminution (other than temporary) in value.

G. Valuation of Inventories

Raw Materials, Packing Materials, Work in Process, Finished Goods and Traded Goods are valued at lower of cost or net realizable value after providing for obsolescence, if any. However, these items are considered to be realizable at cost if the finished products, in which they will be used, are expected to be sold at or above cost.

Cost comprises expenditure incurred in normal course of business in bringing such inventories to their present location and condition.

Cost of inventories is arrived on FIFO basis.

H. Cash and Cash Equivalents

Cash and Cash equivalent for purpose of cash flow statement comprise cash at bank and in hand and short term investment with an original maturity of 3 months or less.

I. Foreign Exchange Transactions

Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of the transaction. Foreign currency monetary assets & liabilities and forward contracts are restated at year end exchange rates.

Exchange Gain/Loss is credited / debited as Other Income / Other Expenses in the statement of Profit and Loss under the head "Foreign Exchange Fluctuation Account".

J. Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized when the Company has a present obligation as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the Balance Sheet date.

Contingent Liability are not recognized, but are disclosed in the Notes.

Contingent assets are neither recognized nor disclosed in the financial statements.

K. Revenue Recognition

Revenue is recognized to the extent that is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Revenue from sale of goods is recognized when significant risks and rewards of ownership of the goods have been passed to the buyer, which ordinarily coincides with dispatch of goods to customers. Revenues are recorded at invoice value, but net of Sales returns and trade discounts.

Benefits on account of entitlement of export incentives are recognized as and when the right to receive is established.

Interest income is recognized on time proportion basis.

Dividend income is recognized when the right to receive is established.

L. Employee Benefits

Liabilities in respect of Retirement Benefits are provided by monthly payment to Pension and Provident Fund under the Employees Provident Funds (and Miscellaneous Provisions) Act, 1952.

The Gratuity payable at the time of retirement are charged to the Statement of Profit and Loss on basis of independent external actuarial valuation determined and basis of Projected Unit Credit method carried out annually. Actuarial gains and losses are immediately recognized in the Statement of Profit and Loss.

Company has not framed policy to pay Leave Encashment to the employees. Benefit in terms of workmen demand pending settlement, medical reimbursement, leave travel concession, are accounted when paid.

M. Income Tax

The amount of Income Tax is provided in accordance with the provisions of Income Tax Act, 1961. Deferred tax is recognized, subject to the consideration of prudence, on timing differences being differences between taxable incomes and accounting income that originate in one period and are capable of reversal in one or more subsequent periods.

Deferred tax assets are not recognized on unabsorbed depreciation and carry forward of losses unless there is a virtual certainty that sufficient taxable profits will be available against which such deferred tax assets can be realized.

N. Borrowing Costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial periods of time to get ready for intended use. All other borrowing costs are charged to the revenue.

Interest and other cost in connection with the borrowing of fund are charged to the Statement of Profit and Loss.

O. Impairment of Assets

An assets is treated as impaired when the carrying cost of the assets exceeds its recoverable value. An impairment loss is charged to the profit and loss account in the year in which the assets are identified as impaired. The impairment loss recognized in the prior periods is reversed if there has been a change in the estimate of recoverable amount.

P. Research and Development

Revenue expenditure on Research and Development is recognized as expense in the year in which it is incurred. Capital expenditure on Research and Development is shown as addition to Fixed Assets.

Q. Expenditure on Regulatory Approvals

Expenditure incurred for obtaining regulatory approvals and registration of products for overseas markets is charged to revenue.

R. Government Grants and Subsidies

Capital subsidy/Government grants are accounted for where it is reasonably certain that the ultimate collection will be made.

Capital subsidy/Government grants related to specific depreciable assets are shown as deduction from the gross value of the asset concerned in arriving at its book value. The grant/subsidy is thus recognized in the Statement of Profit and Loss over the useful life of such depreciable assets by way of a reduced depreciation charge.

S. Leases

Lease rentals on assets taken on operating lease are recognized as expense in the Statement of Profit and Loss on an accrual basis over the lease term in accordance with the lease agreement.

T. Events after the date of Balance Sheet:

Wherever material, events occurring after the date of Balance Sheet are considered up to the date of adoption of the accounts.

U. Claims:

Claims against the company not acknowledged as debts are disclosed after a careful evolution of the facts and legal aspects of the matter involved.

V. Prior Period & Extra Ordinary Items:

Prior Period adjustment, extra ordinary items and changes in the accounting policies having material impact on the financial affairs of the Company are disclosed.

II OTHER EXPLANATORY NOTES AND INFORMATION:

- A. Amount of Income Tax has been provided on Taxable Income of the Company as per provision of the Income Tax Act, 1961.
- B. The Board of Directors are of the opinion that discounted net future generation from the Assets in use and shown in the schedule of fixed assets, is more than the carrying amount of fixed assets in Balance Sheet, as such, no provision for Impairment of Assets is required to be made in terms of the requirement of accounting standard (AS - 28) "Impairment of Assets" issued by the Institute of Chartered Accountants of India for the year ended 31.03.2017
